THE MARKET IN DETAIL (cont'd)

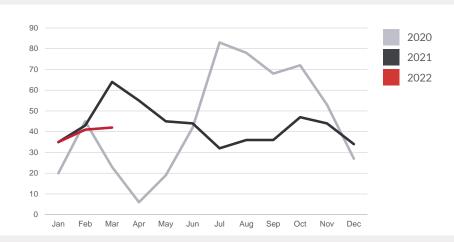

Although not quite as active as Q1-2021, The Blue Mts.' first quarter set a new dollar sales record due to a huge jump in sale prices. As **Graph 3** shows, big record volume in January and February, followed by a strong March, combined to give Q1 \$177,237,808 in volume, up 26% from last year's former high. On the units side, Q1's 119 were down 16% from last year's benchmark 142, and the second best overall. That said, other signs that the market is still strong include March's: 101.8% sale/list price ratio; 16-day average sale time; relatively high 72% sales/listings ratio; and just one month of inventory. And then there is The Blue Mts.' Q1 average sale price. At \$1,489,393 it's up an incredible 141%, 139%, 106%, 101% and 50% from the Q1's of 2017, 2018, 2019, 2020 and 2021 respectively.
